PORTABLE LED BEACON

PL24AM

VISION Safe
Be Safe, Be Seen!

Designed using the latest in LED technology, this versatile beacon is battery operated with a carrying strap and a magnetic base, allowing it to be used exactly where you need it.

The Portable LED Beacon also features a Day/Night function which can be activated by the flick of a switch, allowing the beacon to turn itself on or off based on the current lighting conditions.

FEATURES

- Compact and portable 360° LED light
- Features a carrying strap and industrial strength magnetic mount
- 24 Super-bright LEDs
- Switch activated Day/Night function allows beacon to automatically turn on in low light situations
- Triple Flash pattern - 180 flashes per minute
- Requires 2 D size batteries (not included)
- Ideal for outdoor uses such as emergency response, construction, traffic control and other industrial applications
